Project Learning Tree Activities for Families

<https://www.plt.org/activities-for-families/>

Nature is a great teacher! Try these activity ideas from Project Learning Tree to connect the children in your life to the outdoors and nature.

Suitable for children ages 3 – 15, some activities work better for younger children, others are more suited for older children. The way you present them will change depending on your child's knowledge and ability.

Download each Family Activity individually below, or [purchase](#) this printed guide that contains a collection of more than 30 fun and easy-to-do activities.

Discover Water from Project WET

<https://www.discoverwater.org/>

Keep students learning about water by using [DiscoverWater.org](https://www.discoverwater.org/). Ask students, parents, and teachers to pay special attention to the activity [Soap and Water Science](#) that teachers about the importance of washing with soap and water.

Online Training

Earth Day 50 - Climate Change PD

To celebrate [50 years of Earth Day](#), [Project WILD](#), [National Wildlife Federation](#), and [Project WET](#) are teaming up to provide an online professional development opportunity! On March 23, they're launching a FREE online training for educators on climate topics. This self-paced course will prepare you to lead others in a full week of climate education, community building, and storytelling.

Educators who complete the course will also receive access to two activities from Project WET's *Climate, Water and Resilience Educator Guide*, two Project WILD climate activities, and NWF resources. Did we mention it's all free? [Sign up today](#) to reserve your spot in the training!

Downloadable Resources

Project WET Children's Activity Booklets

<https://store.projectwet.org/childrens-activity-booklets.html>

Keep kids learning outside the classroom with self-guided activity booklets. Available in print and PDF download.

Online Training

Project WET 2.0 Online Educator Training

<https://store.projectwet.org/the-project-wet-curriculum-and-activity-guide-2-0-online-training.html>

The Project WET Curriculum and Activity Guide 2.0 Online Training is a digital interactive workshop for educators who are unable to attend an in-person Project WET workshop. The Online Training gives educators information about Project WET and leads them through activities from Guide 2.0. It also includes required workshop components such as practice teaching, information on educational standards related to Guide 2.0 and internet resources, all in a self-paced, interactive format. At the completion of the Online Training, educators will receive a print copy of the Project WET Curriculum and Activity Guide 2.0 and certification as a Project WET educator.

Project Learning Tree Online Trainings

plt.org/trainings/online/

PLT currently offers several online courses:

- [Environmental Education for Kindergarten to Grade 8](#)
- [Tremendous Science! for Grades K-2](#)
- [Energy In Ecosystems for Grades 3-5](#)
- [Carbon & Climate for Grades 6-8](#)
- [Early Childhood](#)
- [GreenSchools](#)

These online workshops are self-paced courses composed of several 20-30 minute learning experiences, called "coursels." Each course has been designed using best practices in online learning and teacher professional development (review [The 5+ Guiding Principles of Teacher Professional Development](#) for more information). They prepare educators to integrate environmental education materials into their instruction.

Each online course provides a high-quality professional development experience.
